Paying for your pool

Order through our sales team or, when online ordering is open, at readypool.com/buy. Online, you choose your pools and options, review the full price (pool, options, delivery and applicable sales tax), and pay a deposit or the full amount. Your payment submits an order request: you sign the Purchase Agreement, and the order is accepted when Ready Pool countersigns and sends you the accepted copy. If the request is not accepted, your payment is refunded in full. For financing, use your own bank, credit union or pool lender; sales can provide your configured order details. ReadyPool does not provide loans.
